Save the date: 9 and 10th September 2016 Coimbra, Portugal

Coimbra's Liver Transplantation Conference
Coagulation, Liver Disease and Liver Transplant
Facts and Controversies

Event content
Monothematic meeting will cover a variety of concepts in liver and coagulation, highlighting management before, during and after liver transplant. Active scientific expert’s discussion is expected. The event will therefore be of great interest to all those who work in the field of liver transplant.
Official language: English

Who should attend
The transplant process is complex and involves many people. Everyone working closely with transplant patients is encouraged to participate: surgeons, anaesthesiologists, intensivists, hepatologists, gastroenterologists, haematologists.

Venue
Coimbra's Paediatric Hospital Auditorium - Coimbra's Hospital and Universities Centre (Centro Hospitalar e Universitário de Coimbra), CHUC

Organising Committee
PAEDIATRIC AND ADULT LIVER TRANSPLANTATION UNIT, HAEMATOLOGY DEPARTMENT
